

Title

Anna Korakaki set to win with ELEY tenex air pellets

Copy

ELEY are delighted to announce a new partnership with Anna Korakaki, the current ISSF world number one pistol shooter. Anna is already part of team ELEY for our .22 ammunition and has used her ELEY® tenex .22LR ammunition to great effect. She will now exclusively shoot the new ELEY tenex air pellets.

Anna tested her pellets at ELEY's range in Munich and was impressed with the results: "I love the quality of their products, it's what's best for my pistols. They have a great feel while shooting, and the people at ELEY are amazing to work with!"

Anna is currently leading the world rankings in both Air Pistol and Sport Pistol, with a track record that is the envy of any shooter. She made history at the 2016 Rio Olympic Games, becoming the first Greek woman in the country's history to win two medals at a single Games and earned the honour of ISSF Shooter of the Year. So far this year Anna has won two Golds and a Bronze in the US and Mexico World Cups and now all eyes are on the highlight of 2018, the World Championships in Korea.

The ELEY team wish Anna the very best of luck and look forward to sharing many more successes with Anna in the coming years. To find out more about the Greek champion check out her profile at www.eley.co.uk/eley-shooters or follow her Instagram profile @annakorakaki.

ENDS

Notes to Editors

ELEY®, the leading British engineering company, was established in 1828 and is globally recognised as the premier manufacturer of .22LR rimfire ammunition. The highly qualified team based at our UK production facility includes internationally recognised specialists in internal and external ballistics, powder dynamics, and metrology. The ELEY® product range includes ELEY® tenex, the world's most successful .22LR competition cartridge.
