**ELEY tenex air take Changwon by storm**

**Copy**

ELEY shooters Sergey Kaminskiy (RUS) and Petar Gorsa (CRO) took gold and silver in the 10m Air Rifle final at the 52<sup>nd</sup> ISSF World Championships in Changwon Korea. Kaminskiy was leading throughout the competition when his second to last shot, pulled to an 8.9 bringing him back level to Gorsa. The final shot of 10.6 secured the win for Kaminskiy. It was an incredible final with both shooters, on top form. Straight after the event, Kaminskiy told us,

“I am really happy, I didn’t realise what happened because I didn’t expect to be a world champion. When you work – you think only about your current shot, loading, pulling the trigger but you only know what will happen – when it is over. This win is so amazing but it has not sunk in yet. Thank you ELEY for all your support, I am very, very happy” .

Gorsa was also delighted “Because I have now secured a quota place it takes all the pressure off which will make it so much easier for all my upcoming competitions. It was a great result.”

Anna Korakaki was pushed to the limit but hit gold in the Womens 10m Air Pistol with Zorana Arunovic another ELEY sponsored athlete taking silver.

Other ELEY Changwon wins have included Olena Kostevych and Oleg Omulchuk from the Ukraine mixed team who won bronze in the 10m Air Pistol. In the 10m Air Rifle Mixed Team event, Mr Yang Haoran from the People’s Republic of China won gold and the Russian team of Anastasia Galashina and Vladimir Maslennikov took bronze.

ELEY tenex dominated the 50m men pistol event with Om Prakash Mitharval (India) Gold, Damir Mikec (Serbia) Silver and Bronze to Daemyung Lee (Korea).

Junior shooters have also delighted in the ELEY air phenomom with Yoo Hyunyoung and Lim Hojin (Korea) taking silver in the 10M mixed team air pistol junior event.

“ELEY are thrilled to have such great results from teamELEY athletes. The quality of shooting has been extraordinary, especially when you consider the added pressure of competing for the first quota places of the Tokyo 2020 Olympic Games. We wish all our shooters continued success and look forward to supporting them in the coming days,” said ELEY’s Marketing Director Abigail Darke.

ENDS

**Notes to Editors**

ELEY®, the leading British engineering company, was established in 1828 and is globally recognised as the premier manufacturer of .22LR rimfire ammunition. The highly qualified team based at our UK production facility includes internationally recognised specialists in internal and external ballistics, powder dynamics, and metrology.
